REGISTER BOOKS AND OTHER PUBLICATIONS ISSUED BY THE COMMITTEE OF LLOYD'S REGISTER OF SHIPPING

LLOYD'S REGISTER BOOK (The Register of Ships and List of Shipowners are issued annually in July; the Appendix in January)

The Register of Ships (in two volumes A–L and M–Z) contains the names, classes and general information concerning the ships classed by Lloyd's Register of Shipping (including the British Corporation Register); also particulars of all known ocean-going merchant ships in the world, of 100 tons gross and upwards.

The second volume (M–Z) also contains flexible towable containers, ships carrying refrigerated cargo, refrigerated cargo containers, and refrigerated stores classed with Lloyd's Register, as well as lists of changes of ships' names and compound names.

The Register is kept up to date by means of cumulative monthly Supplements containing the latest survey records for all classed ships, and changes of name, ownership, flag, tonnage, &c., for all ships, whether classed or not. Each Supplement is accompanied by particulars of new entries to the Register—that is, new ships and ships of which the names have been changed.

A Weekly List of Alterations in the Register of Ships is also published.

List of Shipowners contains a list of owners and managers of the ships recorded in the Register with their fleets.

The Appendix contains lists of shipbuilders with existing ships they have built; marine enginebuilders and boilermakers; dry and wet docks; telegraphic addresses and codes used by shipping firms; marine insurance companies.

Statistical Tables are issued gratis to Subscribers to the Register Book.

REGISTER OF YACHTS

Published annually in April, this volume contains in addition to detailed information relating to yachts classed by the Society, the names, dimensions, etc., of other British and overseas yachts, whose particulars are known; a list of one-design classes, and the sail numbers of certain classes of racing yachts; also, in an Appendix, particulars of Yacht and Sailing Clubs, with the names of Officers; yachts whose names have been changed; yacht builders and designers with the yachts they have built and designed, and a list of Yacht Owners with their addresses, Clubs and the names of their yachts.

The Sail Numbers section may be purchased separately.

FOREWORD

SPECIAL attention is directed to the necessity of consulting the latest issue of the monthly Supplement for up-to-date records of surveys held on ships classed with the Society.

The information published in this Register of Ships has been obtained from sources which are believed to be reliable, but the Society is unable to guarantee the accuracy of all the details included. In particular, it will be appreciated that, owing to lack of official information from the U.S.S.R. and the People's Republic of China, records of merchant ships registered in those countries are not complete.

All ships at present classed by Lloyd's Register of Shipping are included in this book. Every effort is made to obtain and publish accurate details of all other merchant ships of 100 gross tons and above which are sea-going.

R. B. NANCARROW,

July, 1966 *Secretary*

Extract from the Society's Regulations:—

"The Committees of the Society use their best endeavours to ensure that the functions of the Society are properly executed, but it is to be understood that neither the Society nor any Member of any of its Committees nor any of its Officers, Servants or Surveyors is under any circumstances whatever to be held responsible or liable for any inaccuracy in any report or certificate issued by the Society or its Surveyors, or in any entry in the Register Book or other publication of the Society, or for any act or omission, default or negligence of any of its Committees or any Member thereof, or of the Surveyors, or other Officers, Servants or Agents of the Society."

KEY TO THE REGISTER OF SHIPS

Column 1

LR Identity No.

The six-figured number printed in bold type is used for automatic data processing, and will remain unchanged during the life of the ship.

Call Sign

Assigned by the national authority with which the ship is registered.

Official No.

The number on the register of the national authority.

Navigational aids and other equipment

Df	Direction finder
Esd	Echo sounding device
Gc	Gyro-compass
Pfd	Position fixing device
Rdr	Radar
RT	Radio-telephone
RTm	Radio-telephone (medium frequency)
RTh	Radio-telephone (high frequency)
RTv	Radio-telephone (very high frequency)

Column 2

Former Names

The figures following the former name of a ship indicate the year in which the change of name occurred.

Former names are retained in the Register throughout the life of the ship, and an index to these names is given at the end of the second volume of the Register of Ships.

Owners

The name recorded in **bold type** is that of the registered owner.

Managers

The managers of the ship are recorded if desired.

Port of Registry

A port printed in *italic type* is the home port of a ship and is shown where there is no known port of registry.

Flag

Indicates the national authority with which the ship is officially registered.

Column 3

TONS

Gross tonnage

The gross tonnage printed in **bold type** is measured according to the law of the national authority with which the ship is registered.

This measurement is, broadly, the capacity in cubic feet of the spaces within the hull, and of the enclosed spaces above the deck available for cargo, stores, passengers and crew, with certain exceptions, divided by 100.

Thus, 100 cubic feet of capacity is equivalent to 1 gross ton.

Net tonnage

Derived from the gross tonnage by deducting spaces used for the accommodation of the master, officers, crew, navigation, propelling machinery and fuel.

For some ships not sailing under the British flag, the gross and net tonnages have been measured in accordance with British rules and are accepted under British law. In such cases, the gross and net tonnages are printed in *italic type*.

Deadweight

The weight in tons of 2240℔ of cargo, stores, fuel, passengers and crew carried by the ship when loaded to her maximum summer loadline.

Shelter deck ships

Shelter deck ships which have arrangements for sailing in either the open or closed shelter deck condition are indicated in column 6 by the letters OSD/CSD. The draught in the CSD condition is greater than that in the OSD condition, thus increasing the deadweight carrying capacity. The gross and net tonnages are also increased in the CSD condition because of the inclusion of the capacity of the shelter 'tween decks in these tonnages. When available both sets of tonnages and both draughts are recorded in the Register for OSD/CSD ships.

Ore/Oil carriers

Two gross and two net tonnages are also recorded, when available, for a ship which is designed to carry either ore or oil cargoes.

Column 4

CLASSIFICATION

Classification Symbols of Lloyd's Register of Shipping

Hull and Equipment

✠	Denotes that the ship was built under the supervision of the surveyors in accordance with the Rules and Regulations of Lloyd's Register of Shipping.
100A1	Character of sea-going iron or steel ships classed with Lloyd's Register.
A1	Character assigned to ships intended to trade within sheltered waters such as harbours, rivers or estuaries. Prior to 1948 this character was also assigned for limited sea-going service.
A1	Character of wood or composite ships. The number prefixed to the character indicates the term of years for which the ship is at present classed.
Cont. or Rest.	Indicates continuation or restoration of class after the original term of years has expired. A number of years suffixed to the character, thus –8 yrs, indicates the period of extension granted.
1	The figure **1** in the character signifies that the ship has equipment of anchors, chain cables and hawsers in accordance with, or of a standard equivalent to, the Rule requirements for sea-going ships classed for unrestricted service or has equipment which is acceptable to the Committee for a special or restricted service. If, by reason of the ship's service, normal equipment is considered to be unnecessary, the figure **1** may be omitted from the character of classification.
-	This sign in the position usually occupied by the figure **1** indicates that the equipment of the ship is not in accordance with the full tabulated requirements, but is acceptable for the particular service.
with freeboard with fbd	Signifies that the freeboard assigned is a condition of the ship's class. The scantlings of ships built since 1949 are based upon a specified draught and this notation is no longer assigned.

The extreme breadth is the maximum breadth to the outside of the ship's structure and in paddle ships includes the paddle wheels.

Maximum draught

In most cases this is the maximum summer draught amidships, but in some ships of special construction the maximum draught is at the after end, and this figure is recorded. For ships employed on the Great Lakes and rivers, whose freeboards are assigned by Lloyd's Register, the summer draught in fresh water is inserted.

For OSD/CSD ships, the summer draught in the open condition is recorded, followed by the draught in the closed condition.
